

FCC:

I respectfully urge you to reject the NAB's petition 04-160 for many reasons. The main reason is that I travel all the United States highways in a commercial vehicle year round and the ability to hear instant weather for various cities around the country better helps me make routing decisions. It also helps me to safely deliver my freight to various customers by getting the information via my XM Satellite Radio. I believe that there are thousands of truckers that feel the same way as I do regarding this matter.

Sincerely

James F. Moore SR
